

Scenario ID	Scenario Name	Scenario Description	Preconditions	Expected Value / Outcome
TS_01	Verify User Registration Google	Validate that a new user is able to successfully login with their Google account.	User is on the website homepage and no account is logged in.	User is successfully logged in, and the user should be able to access the account/dashboard.
TS_02	Verify Adding Multiple Products to Basket	Validate that a user is able to add a Vitamin C product from the "Vitamins & Supplements" category and a Vegan Chocolate product from the "Vegan" category to the shopping basket.	User has a registered account, is logged in to the website, and both product categories are available.	Both selected products are successfully added to the basket and are visible in the basket/cart with the correct product details and quantities.
TS_03	Verify Basket Total and Subtotal Calculation	Validate that a user is able to add multiple products from different categories to the basket and that the basket correctly calculates the subtotal for each product and the overall total amount.	User has a registered account, is logged in to the website, and the required products are available in the "Vitamins & Supplements" and "Vegan" categories.	All selected products (2 Vitamin C products and 3 Vegan Chocolate products) are successfully added to the basket. The subtotal for each product is correctly calculated based on quantity $\times$ price, and the basket total equals the sum of all product subtotals.
TS_04	Verify User Registration Apple	Validate that a new user is able to successfully login with their Apple account.	User is on the website homepage and no account is logged in.	User is successfully logged in, and the user should be able to access the account/dashboard.
TS_05	Verify User Login Continue with email	Validate that an existing user is able to successfully login with their Email ID and Password.	User is on the website homepage and no account is logged in.	User is successfully logged in, and the user should be able to access the account/dashboard.
TS_06	Verify User Sign Up	Validate that a new user is able to create an account with their details.	User is on the continue with email page and has no existing account with H&B	User is successfully registered, a confirmation message is displayed, and the user should access the account/dashboard after login.
TS_07	Verify Search Bar Functionality	Validate that the search bar returns relevant results based on the item entered by the user.	User should be on the website homepage.	Relevant products matching the search keyword are displayed. If no exact match is found, appropriate suggestions or related products are displayed.
TS_08	Verify Store Finder	Validate that the Store Finder feature returns nearby stores based on the entered postcode/PIN code.	User should be on the store finder page.	Nearby stores matching the entered postcode/PIN code are displayed. If no stores are found, a "No results found" message is displayed.
TS_09	Verify Use My Current Location	Validate that the "Use my current location" option identifies the user's current location and displays nearby stores.	User is on the Store Finder page and location access is enabled in the browser.	Nearby stores based on the user's current location are displayed. If no stores are found, a "No results found" message is displayed.
TS_10	Verify Coupon Code Functionality	Validate that a valid coupon code is able to be successfully applied to the basket and the corresponding discount is reflected in the order total.	User is logged in, has products in the basket, and a valid coupon code is available.	Coupon code is applied successfully, a confirmation message is displayed, and the basket total is updated with the applicable discount.
