## **Equivalence Class Partitioning**

### **1. Age Field (18 - 99 )**

| S.No | Equivalence Class     | Representative Test Value | Status (Passed/Failed) |
|------|-----------------------|---------------------------|------------------------|
| 1    | Age less than 18      | 16                        | Failed                 |
| 2    | Age between 18 and 99 | 18                        | Passed                 |
| 3    | Age between 18 and 99 | 42                        | Passed                 |
| 4    | Age between 18 and 99 | 99                        | Passed                 |
| 5    | Age greater than 99   | 105                       | Failed                 |

### **2. Marks ( 0–100)**

| S.No | Equivalence Class       | Representative Test Value | Status (Passed/Failed) |
|------|-------------------------|---------------------------|------------------------|
| 1    | Marks less than 0       | -2                        | Failed                 |
| 2    | Marks between 0 and 100 | 0                         | Passed                 |
| 3    | Marks between 0 and 100 | 75                        | Passed                 |
| 4    | Marks between 0 and 100 | 100                       | Passed                 |
| 5    | Marks greater than 100  | 110                       | Failed                 |

### **3. Password Length ( 8–16 )**

| S.No | Equivalence Class                | Representative Test Value | Status (Passed/Failed) |
|------|----------------------------------|---------------------------|------------------------|
| 1    | Password length less than 8      | mypass                    | Failed                 |
| 2    | Password length between 8 and 16 | MyPasswd                  | Passed                 |
| 3    | Password length between 8 and 16 | Secure123                 | Passed                 |
| 4    | Password length between 8 and 16 | VerySecurePass            | Passed                 |
| 5    | Password length greater than 16  | ThisIsWayTooLong123       | Failed                 |

### **4. Username Length ( 5–15 )**

| S.No | Equivalence Class                | Representative Test Value | Status (Passed/Failed) |
|------|----------------------------------|---------------------------|------------------------|
| 1    | Username length less than 5      | Oju                       | Failed                 |
| 2    | Username length between 5 and 15 | Bingo                     | Passed                 |
| 3    | Username length between 5 and 15 | Brahm12                   | Passed                 |
| 4    | Username length between 5 and 15 | BrahmXD                   | Passed                 |
| 5    | Username length greater than 15  | BrahmBigBang              | Failed                 |

## 5. Number of Tickets (Valid: 1–10)

| S.No | Equivalence Class                  | Representative Test Value | Status (Passed/Failed) |
|------|------------------------------------|---------------------------|------------------------|
| 1    | Number of tickets less than 1      | -1                        | Failed                 |
| 2    | Number of tickets between 1 and 10 | 1                         | Passed                 |
| 3    | Number of tickets between 1 and 10 | 7                         | Passed                 |
| 4    | Number of tickets between 1 and 10 | 10                        | Passed                 |
| 5    | Number of tickets greater than 10  | 15                        | Failed                 |
